

Key To Rom Log Summary

- 1.)Space Kids age at different rates: One earth year equals 7 hybrid years for Abena, Shanna, Izzy, Undal, Moboo, and Susan. Also, for Heidi one earth years equals 5 hybrid years.
 - a.)Confirmed: "From Outer Space To You" by Howard Menger. Page 130. 165.
 - b.)*See my notes in time log: 9-17-2014.*
- 2.)Different ET races have different life cycles & aging rates.
- 3.)Some of the Space Kids eye, hair and skin color change per their own cycles.
- 4.)When the Space Kids reach 21 hybrid (3 Earth) years they then develop at a one to one ratio with earth.
- 5.)The Females ETs have different pregnancy rates.
- 6.)All Females have only a etheric bodies except Heidi who has a solid physical body in stasis.
- 7.)The majority of ETs in our solar system live on city ships and not on planets.
- 8.)All Female ETs have no 3rd eye or subconsciousness except Heidi.
- 9.)The Space kids can project sound or video into my mind from their mother wombs before birth. (In Utero)
- 10.)Education of children begins at conception and later migrates to "Learn Tubes" after birth.
- 11.)The mother birthdays is point of view dependent: Solar, Venus, Mars, Jupiter, Saturn.
- 12.)The mothers and space kids don't celebrate birthdays.
- 13.)Point of Evolution has three levels for both humans and ETs: The Divine Spark, Soul, and Personalty.
- 14.)I use four types of reference: Notes In Time. Theosophy Texts. Books by Other contactees. UFO photos by Me or You-tube videos.
- 15.)Over time the Space Kids have taken over for my well being.
- 16.)ETs relationships are just as complicated as humans but on a much higher level of wisdom.
- 17.)ETs love to do Photo Ops in movies.
- 18.)Most of the Space Brother's tech is thought based. However other groups prefer machine base tech.
- 19.)Most of the UFOs are build by way of "Thought Manufacturing" on Mars.
- 20.)Due to unexpected problems the ETs may have to change their plans. So predictions might not come to pass.
- 21.)Most of the time the family appears as orbs of light. However there are times when they take solid physical form for special events.
- 22.)ET Telepathic communication with me occurs both when I am asleep and awake. No difference.
- 23.)The space brothers don't have money. They trade Knowledge & Technology

as a basis of exchange.

They live in a push button culture where all their needs are met.

24.)Most contactees are chosen based on karma & intentions.

25.)Most of the ET Races are usually a few step ahead of their contactees. They know how their

contactees will react.

26.)Most ET races use thought transference with their contactee unless face to face, solid physical, one

on ones is needed.

27.)The more spiritually advance ET races use "Force of Will" concentration to talk with their

contactees. Other less advanced ET races use technical devices.

28.)The ET races are on the same journey of discovery as earth humans. They make mistakes too! They

are not perfect.

29.)Over time the contactee may begin to read the random thoughts of their ET trainer.

30.)Without a trust bond with an ET trainer it is not possible to become a life long contactee.

31.)Not all ET races are friendly. some are evil.

32.)Over time my ET wives have extended the distance between our mind to mind contact.

33.)There are 3 basic types of relationships between the many ET races visiting earth at this time:

a.)friends. b.)enemies. c.)frenemy

34.)ETs can be very pushy with their contactees in the beginning.

35.)Like their earth counterparts the ET may have scheduling problems with their contactees & other

races.

36.)The space brothers will never ask their contactee for anything that would disrupt their normal plans

of living.

37.)The space brothers do not violate human free will unless request to do so by the personality's soul

or for pass karmic reasons due to divine law.

38.)Please keep in mind that the point of evolution statements are subject to different ET points of

views. This applies to time, space and cycle measurements. An example would be that when it is

the cycle of Leo on earth it might well be the cycle of Aquarius on Pluto. That is, the point of

evolution statement for a personality on earth may be 2.0, however it may be 4.0 on Mars. Think

of it in terms of stander vs metric measurements. The space brothers use a 9 digit system of

measurement whereas on earth we use a 10 digit system. Their maybe other cubes of time space

that throughout the milky way that use a 7 digit system or some other system

unknown to earth.

This notion is quite well known in linguistics where certain words are not convertible from one

language to another. The tower of babel problem is very common between the many ET races

visiting earth at this time.

39.)A lot of the predictions made by the space brothers in my log were dead wrong. This is very

common with psychic predictions. I believe this is due to the paradox of fate vs free will.
